SUSTAINABLE ECONOMY
ASSOCIATION

Belgium: Sustainable Economy Association (SEA) aims to accelerate the economic transition towards a sustain-

able economic model. SEA intends to be a change agent and a counterpart to more traditional and other change adverse business stakeholders.

Greening Europe's Economy

Ecopreneur.eu, European Sustainable Business Federation, sets a course for sustainable economic policies on the European level.

Hearing European Parliament (ITRE). © European Union 2015

Ecopreneur.eu advocates for a genuinely sustainable economy. Ecopreneur.eu lobbies at the national and European level for subsidiarity and decentralization of economic, ecological, and social structures.

The federation represents over 2000 SMEs across Europe, all of which are green pioneer enterprises implementing new sustainable business models.

www.ecopreneur.eu

Political Positions and Topics

Ecopreneur.eu's political positions focus on environmentally sound and economically viable topics. The main goal is the transformation of the European economy towards sustainability.

The federation gives expert input on topics such as Circular Economy, political instruments for small and medium sized enterprises (e.g. Green Action Plan), energy transition and trade policy in Europe.

Ecopreneur.eu also supports green start-ups with networking activities and publications e.g. "Guidelines for green start-ups".
